ROBOTICS AND DIGITAL SYSTEMS ENGINEER

Electronics & Software Development | AI & Robotics Enthusiast | Problem Solving

- Current student in the Software Engineering Technician College Diploma
- Strong experience in software development and robotics programming
- Skilled in multiple coding languages including Python, C++, Java, JavaScript and SQL
- Strong experience with neural network design for autonomous systems
- Proven ability to adapt to diverse environments and solve complex problems
- Collaborative engineer experienced working with multidisciplinary teams
- Skilled in identifying efficient solutions through analytical thinking and client-focused problem solving
- Certified in “Transform to Transcend” (2022), enhancing team collaboration and communication

TECHNICAL SKILLS

Programming: Python, C++, C, Java, JavaScript, SQL, MATLAB, NumPy, Pandas

Web Development Tools: React.js, Node.js, Express.js,

Databases: MongoDB and Oracle SQL

Operating Systems and Frameworks: Windows, Linux, Kali Linux, ROS/ROS2, AutoCAD

Tools: Visual Studio Code, Eclipse, Arduino, GitHub, Oracle VirtualBox, MS Office, SQL Developer

EDUCATION

Software Engineering Technician (Fast-Track) Ontario College Diploma May 2026 – Present
Centennial College, Toronto, ON, Canada

Relevant Courses:

Java Programming	Advanced Database Concepts (SQL)	Web Application Development
Software System Designs		

Cybersecurity Ontario College Graduate Certificate September 2025 – April 2026
Centennial College, Toronto, ON, Canada GPA: 4.15/4.50 (A)

Relevant Courses:

Mobile Network Security	Cloud Security	Ethical Hacking and Defense
Cryptography & Network Security	Web Security	Software Security
Information Systems Security	Communication Networks	

Robotics and Digital Systems Engineering Bachelor’s Degree August 2020 – May 2024
Tecnologico de Monterrey, Mexico GPA: 4.28/4.50 (A+)
Concentration: Cyber-Physical Systems

Multicultural High School Diploma August 2017 – May 2020
Tecnologico de Monterrey, Mexico GPA: 4.18/4.50 (A)
Exchange Program: Berlin, Germany

PROJECT EXPERIENCE

Cybersecurity Capstone Project – Centennial College, Toronto, ON January-April 2026

- Trained a Machine Learning (ML) based Intrusion Detection System (IDS) model to protect a network against multiple cyberattacks, achieving a 90% confidence rate.

Autonomous Robots – Tecnologico de Monterrey, Mexico April-June 2026

- Rehabilitated and implemented a line follower system for a 1/10 autonomous car, boosting lane detection accuracy by 30% and improving system stability under varying light conditions

Helgen Technologies – Tecnologico de Monterrey, Mexico October-December 2023

- Designed and trained a neural network for an autonomous lift truck, achieving 95% object recognition accuracy and able to detect pallets, boxes, shelves and persons
